The terms of use for this study can be found at: http://www.icpsr.umich.edu/icpsrweb/ICPSR/studies/31181/terms

Information about Copyrighted Content

Some instruments administered as part of this study may contain in whole or substantially in part contents from copyrighted instruments. Reproductions of the instruments are provided as documentation for the analysis of the data associated with this collection. Restrictions on "fair use" apply to all copyrighted content. More information about the reproduction of copyrighted works by educators and librarians is available from the United States Copyright Office.

NOTICE WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

DOCUMENTATION FOR THE PUBLIC-USE SWAN VISIT 06 DATASET

CHANGES IN THE 2018 DATA REFREEZE:

- A variable describing the race of participants (RACE) was added from the Screener dataset. See the Additional Measures section at the end of the codebook for more information.
- The race/ethnicity of one participant was originally mislabeled and has now been corrected. Race fields now read Caucasian, not Black, for this participant.
- If the interview was not completed, but the Self-A was completed, AGE was calculated based on the date the participant filled in the Self-A Questionnaire.
- Variables STATUS6 and LMPDAY6 have been updated and pulled from another source that evaluated the
 menopause status related variables over time, and corrected inconsistencies via additional corroborating
 information. PLEASE NOTE: STATUS6 has been changed from the prior release to split the surgical category
 into 'Post by BSO (Bilateral Salpingo Oophorectomy)' and 'Unknown due to hysterectomy.' See the Additional
 Measures section at the end of the codebook for more information.
- For the Interview dataset, job start and stop times (D3) were changed to military time format, and the AM/PM variables dropped.
- For the Self-Administered Questionnaire, Part B, 34 women either left the entire questionnaire blank or refused all items. Their forms should have been set to off protocol, and they should not have been included in the original final frozen dataset. They have been removed.
- For the Specimen Collection dataset, 51 specimen logs were added after Visit 06 was originally frozen. These have now been added.
- For Serum Hormone Measures dataset, the lower limit of detection (LLD) ranges have been updated. See the Additional Measures section at the end of the codebook for more information.
- In the Physical Measures section, self-reported weights were included for 51 participants.
- Spine Bone Mineral Density changed slightly for 50 participants due to incorrect application of correction factors

1. Who is included in the public use dataset:

The dataset contains follow-up visit 6 information for the 3,302 women from the 7 clinical sites participating in the SWAN longitudinal study. The sites include Boston, MA, Pittsburgh, PA, Oakland and Los Angeles, CA, Detroit, MI, Newark, NJ, and Chicago, IL.

2. How this codebook is constructed:

Following this documentation section are copies of each of the questionnaires that were used at visit 6. A list of additional variables is also provided. The questionnaires include the variables available for public use next to the question in bold red uppercase underlined letters. Those variables not available for public use have a # before the variable and are in blue. Any special notes are indicated with footnotes at the bottom of the page.

The assigned participant ID has been replaced with a randomly generated SWANID in order to protect participant privacy. The *baseline* interview date is denoted as day 0 and is used as the basis for all other dates. All other questionnaires or data collected that have a date attached have been converted to the number of days from the baseline interview. For example, if the Visit 6 Self-Administered Questionnaire Part A was collected 6 years after the baseline interview, the day for the Self-Administered Part A would be day 2190 and the Baseline Interview would be day 0. *Please note*: Several women were reactivated at visit 6, and their last prior visits were earlier than visit 3.

4

All variables for visit 6 have a 6 at the end of the variable name.

3. Missing data coding:

Documentation

Missing codes are as follows: -1: not applicable, -7: refused, -8: don't know, and -9: missing.

4. Ways this data can be used and additional notes

Interview Questionnaire

In general, any 'Other, specify' text field is not included in the dataset.

- A menopausal status variable (STATUS6) was derived for all analyses of the SWAN data for the participant at visit 6.
- Age (AGE6) was calculated from date of birth to when the interview form was completed, and is rounded to the next lowest integer.
- A social support score can be calculated from the questions in C.8.a-d after recoding them from a 1-5 range to a 0-4 range.
- o CES-D scores can be created from the guestions in C.10.
- A perceived stress score can be created from questions in C.9.
- New to this visit are several questions (D.1 D.4) concerning the events of September 11, 2001.
- The flag FORMINT6 is set with a value of AIN for the 124 participants who completed the abbreviated interview instead of the full interview (see explanation below).

Self-Administered Questionnaire Part A

A Self-A Amended Telephone Interview (PATI), comprised of key questions from the core Follow-up Self-Administered Questionnaire Part A, was administered at study visits in cases where the Self-Administered Questionnaire was not completed. Similarly, an Abbreviated Follow-up Interview (AINT), comprised of key questions from the core Annual Follow-up Interview and Self-Administered Questionnaire Part A, was administered for participants who are not willing to come in for a core study visit, but who were willing to give 10 or 15 minutes of their time to answer questions over the telephone. The flag FORMSAA6 delineates those who did the full questionnaire (SAA) from the 99 participants who did the abbreviated questionnaire (AIN), and the 32 that did the phone interview (PAT).

- o The income question G.1 was condensed so that the income ranges were more broadly defined.
- Current smoking is defined as anyone who answered 'yes' to question B.13 (SMOKERE6) and an answer greater than 0 for B.13a (AVGCIGDA6).
- SF-36 scores for all eight of the subscales can be derived according to the SF-36 User's Manual. Responses may need to be reversed where necessary so that all items are positively scored. Thus for each scale, a higher value indicates better functioning. The Bodily Pain Score is calculated from questions B.24 and B.25. Item recoding depends on whether both questions were answered or one of the items has missing data. After recoding, all the items are positively scored so that a higher score indicates less pain. The Vitality Score is calculated from questions B.26.a, .e, .g and .i. Questions B.26.a and B.26.e should be reversed so that all items are positively scored; for the resulting index a higher score indicates greater energy (and less fatigue). The Social Functioning Score is calculated using questions B.23 and B.27. Question B.23 is reversed so that all items are positively scored; for the resulting index a higher score indicates better social functioning. The Role-Emotional Score is calculated using questions B.22a-c. All items are positively scored, so a higher score indicates better role-emotional functioning. The Mental Health Score is calculated from questions B.26.b - .d, B.26.f and B.26.h. Questions B.26.d and B.26.h were reversed so that all items are positively scored; for the resulting index a higher score indicates participant feels peaceful, happy and calm all of the time. The General Health Score is calculated from guestions B.1, and B.28.a-d. Questions B.1, B.28.b and B.28.d were reversed so that all items are positively scored; for the resulting index a higher score indicates participant believes personal health is excellent. The Physical Functioning Scores are calculated from questions B.20.a-j. All items are positively scored; for the resulting index a higher score indicates ability to perform all types of physical activities including the most vigorous without limitations due to health. The Role-Physical Score is calculated from question B.21a-d. All four questions were reversed so that all items are positively scored; for the resulting index a higher score indicates no problems with work or other daily activities as a result of physical health.
- O Positive and Negative Affect Schedule (PANAS) Scores can be derived from questions H.1.a through H.1.t. A subset of the participants answered the Japanese version, which has 22 culturally appropriate items rather than the 20 items asked on the English version. There is no direct correlation between the two versions, so all Japanese items have been set to missing. In addition, question H.1.b has been set to missing because 'disinterested' was on the form, but the correct PANAS term is 'distressed.' It is suggested that the raw 9 item negative affect score, when multiplied by 1.112, can be made comparable to the positive affect score and the outcomes found in the literature.
- In depth complementary and alternative medicine questions are asked in questions I.1 through I.22.
- The flag FLGSAAV6 is set for the 3 participants who completed the questionnaire after the 02/15/2004 cutoff, and also for the one participant the completed the questionnaire before Visit 6 began (3/15/2002).

Self-Administered Questionnaire Part B

 The flag FLGSABV6 is set for the 3 participants who completed the questionnaire after the 02/15/2004 cutoff, and also for the one participant the completed the questionnaire before Visit 6 began (3/15/2002).

Physical Measures

- o In addition to the variables on the form, BMI6 was also calculated as weight in kilograms divided by the square of height in meters.
- The flag FLGPHYV6 is set for the participants who completed either the full physical (PHY), abbreviated interview (AIN), or the phone interview (PAT). No physical measures were performed for the abbreviated or phone interview (AIN and PAT); however, self-reported weight was collected on the abbreviated interview.

Cognitive Function Form

- o Individual and summary scores are available for the following tests: East Boston Memory Test (both the immediate and delayed recall of a story), Symbol Digits Modalities Test, and the Digits Backward Test.
- o The flag FLGCOGV6 is set for the one participant who completed the questionnaire after the 02/15/2004 cutoff.
- Several special codes were used in this dataset to indicate why tests (and test items) were not administered:
 - 6 = Not administered because of physical impairment
 - 7 = Not administered because of verbal refusal
 - 8 = Not administered because of a behavioral reason
 - 9 = Not administered for some other reason
 - 10 = Administered but not according to protocol

Additional Measures

Serum Hormone Measures

The Visit 6 hormone results are included. Of special note is that the estradiol assay was run in duplicate. The average (E2AVE6) is the within-person arithmetic average of the two assays. A flag indicates if the estradiol results differed by > 10 pg/mL where one or both results <= 20 pg/mL. Hormone results below the lower level of detection (LLD - see table in the Additional Measures section) were recoded to an .L value

Cardiovascular Measures

The Visit 6 cardiovascular results are included. A flag (FLAGSER6) indicates that the lipids were measured on serum rather than plasma because plasma was not available.

Bone Mineral Density Measures

Five of the seven sites participated in the bone study – Detroit, MI, Boston, MA, Oakland and Los Angeles, CA, and Pittsburgh, PA. Total spine and total hip bone mineral density (BMD) measures are provided.

Bioimpedance Measures

Body composition was measured using bioimpedance equipment. Percent body fat (equation provided by Dr. MaryFran Sowers), skeletal muscle mass (Janssen, 2000), fat free mass, total body water, and percent body fat (all provided by RJL Systems and validated using NHANES III data (Chumlea, 2002)) are also provided.

Additional variables

Menopausal status (STATUS6) and last menstrual period day (LMPDAY6) are also provided. Participant race/ethnicity (RACE) is provided from the Screener dataset. See the Additional Measures section at the end of the codebook for descriptions.

Date of completion variables (INTDAY6, SAADAY6, SABDAY6, PHYDAY6, HRMDAY6, CVRDAY6, SPSCDAY6, HPSCDAY6, LMPDAY6, SPEDAY6, HYSTDAY6, COGDAY6, BIODAY6, CAMDAY6) are given in days from interview date at baseline. Note that for 5 participants, interview completion dates at baseline were not available and alternative dates were substituted either from the Self-Administered Questionnaire-A or Physical Measures completion dates at baseline.

Study of Study of Women's Health Across the Nation

ANNUAL FOLLOW-UP INTERVIEW

A9.	INTERVIEWER-ADMINISTERED?	#INTADMI6	1

[†] This date is given in days since the initial baseline interview, which is day zero.

We have some questions that we are asking you to complete on your own. If anything is unclear to you, please feel free to ask questions. Study representatives are available and happy to help you. Please take as much time as you need with each question. It is very important to us that you complete the entire questionnaire. Please find the most appropriate response to each question and circle the number for the answer you choose.

Thank you for your participation in this important study.

We are interested in learning more about women's health during their 40's and 50's. This first set of questions ask about your health and use of health care. B1. In general, would you say your health is excellent, very good, good, fair or poor? (PLEASE CIRCLE ONE RESPONSE.) **OVERHLT6** Excellent 1 Fair 4 Don't know-8 B2. Since your last study visit, how many different times did you stay in the hospital overnight or longer? __ # TIMES **HOSPSTA6** B3. Since your last study visit, about how many times did you see or talk to a doctor, nurse practitioner or other health care provider, regarding your own health? (Do not count hospitalizations or visits for this study.) ___ # TIMES **MDTALK6**

Since your last study visit, about how many times did you see or talk to a health care provider or other

Since your last study visit, have you had:

____ # TIMES

B4.

(PLEASE CIRCLE 1 FOR NO OR 2 FOR YES FOR EACH QUESTION.)

professional for problems with emotions, "nerves", or mental health?

NERVES6

		NO	YES
B5.	A Pap Smear (a routine medical test in which the doctor examines the cervix)?)? PAPSMEA6	1	2

We would like to ask you some additional questions that will help us to understand your answers better. Please remember that this information will remain confidential.

G1.	What is your total family income (before taxes) from all sources within your household in the last year?
	(CIRCLE THE ANSWER THAT IS YOUR <u>BEST</u> GUESS.)
	INCOMES

<u>INCOMED</u>	
LESS THAN \$19,999	1
\$20,000 TO \$49,999	
\$50,000 TO \$99,999	
\$100,000 OR MORE	
REFÚSED	
DON'T KNOW	

G2. How hard is it for you to pay for the <u>very basics</u> like food, housing, medical care, and heating? Would you say it is...(CIRCLE ONE NUMBER)

HOW HAR6

Very hard	. 1
Somewhat hard	
Not hard at all	
Don't know	-8

G3. If you lost your current source of income (your paycheck, your family's paycheck(s), public assistance or other forms of income), how long could you keep your current address and standard of living?

(CIRCLE ONE NUMBER THAT IS THE BEST GUESS.)

LOSSINC6

Less than I month	I
1 to 2 months.	2
3-6 months	
7-12 months	
More than 1 year	
141010 than 1 year	٠

[§] G.1 Income categories have been condensed from the original questionnaire

G4. Compared to the current year, were your finances better off, the same or worse off during each of the time periods listed? (CIRCLE ONLY ONE NUMBER FOR EACH)

		Worse Off	Better Off	The Same
a. One year ago	FINAN1Y6	1	2	3
b. Two years ago	FINAN2Y6	1	2	3
c. Three years ago	FINAN3Y6	1	2	3

G5. Is the home where you live: (CIRCLE ONE NUMBER) **HOMEOWN6**

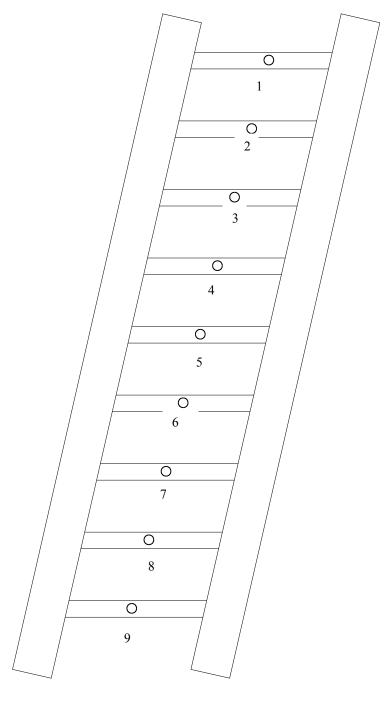

Owned or being bought by you (or someone in the household or	r family)? 1
Rented for money?	2
Occupied without payment of money or rent?	3
Other (specify)	4

HOMESPE6

LADDERS - INSTRUCTIONS:

Think of this ladder as representing where people stand **in their communities**. People define community in different ways, e.g., including friends, neighbors, or coworkers. Please define it in whatever way is most meaningful to you. At the top of this ladder are the people who have the highest standing in their community. At the bottom are the people who have the lowest standing in their community. The higher up you are on this ladder, the closer you are to the people at the very top and the lower you are, the closer you are to the people at the very bottom.

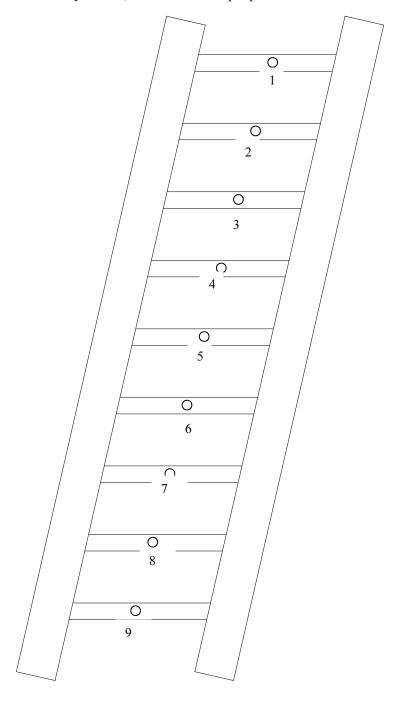

G6. Where would you place yourself on this ladder? Please place an "X" over the circle on the rung where you think you stand at this time in your life, relative to other people in **your community**. **LADERCO6**

INSTRUCTIONS:

Think of this ladder as representing where people stand in the United States. At the top of this ladder are the people who have the most money, most education, and the most respected jobs. At the bottom are the people who have the least money, least education, and least respected jobs or no job. The higher up you are on this ladder, the closer you are to the people at the very top and the lower you are, the closer you are to the people at the very bottom.

G7. Where would you place yourself on this ladder? Please place an "X" over the circle on the rung where you think you stand at this time in your life, relative to other people in the **United States**. **LADERUS6**

H1. We are interested in how you have felt **this week** (the past 7 days) and below are a number of words that describe different feelings or emotions that people experience. Read each item and then, using the scale provided, indicate in the space next to each item how strongly you have experienced these feelings this past week. (CIRCLE ONLY ONE NUMBER FOR EACH.)

ADDITIONAL QUESTIONS FROM OTHER FORM VERSIONS OF THE SELF ADMINISTRATED QUESTIONNAIRE, PART A

Information on two physical activity variables (STRENEX6 and MODEREX6) are only available for the AIN/PAT participants.

Considering a usual 7-day period in the past year, how many times on the average did you do the following kinds of exercise or physical activity?

		TIMES/WEEK
a.	Strenuous exercise or physical activity where your heart beats rapidly	
	(i.e., running, jogging, soccer, singles tennis, vigorous swimming, vigorous long distance bicycling, vigorous aerobic dance) STRENEX6	
b.	Moderate exercise or physical activity, not exhausting (i.e., fast walking, doubles tennis, easy bicycling, easy swimming,	
	alpine skiing, dancing, low impact aerobics, weight lifting/training)	
	MODEREX6

This questionnaire covers material that is sensitive and personal. For some women, sexual activity is an important part of their lives, but for others, it is not. Everyone has different ideas on this subject. To help us understand how these matters affect women's lives and health, we would like you to answer the following questions from your own personal viewpoint. There are no right or wrong answers. Remember, confidentiality is assured. While we hope you are willing to answer all of the questions, if there are questions you would prefer not to answer, you are free to skip them. Please find the most appropriate response to each question, and circle the number for the answer you choose.

B1.	How important is sex in your life?		CIRCLE ONE NUM	BER) <u>IMPOR</u>	IMPORSE6

Always	Almost	Sometimes	Almost	Never	No
	always		never		intercourse in
					last 6 months

B8. During the last 6 months, how often have you used lubricants, such as creams or jellies, to make sex more comfortable?

LUBRICN6

1	2	3	4	5	6
Always	Almost	Sometimes	Almost	Never	No
	always		never		intercourse in
					last 6 months

<u>Please answer the following questions, B9 – B12, about sexual activity with your partner(s).</u>

B9. During the past 6 months, how often were you able to reach climax (come)? ABLECLM6

1 2 3 4 5
Always Almost Sometimes Almost Never always never

B10. During the past 6 months, how often was it important for you to reach a climax? **IMPCLMX6**

1 2 3 4 5
Always Almost Sometimes Almost Never always never

B11. During the past 6 months, how often did you feel satisfied after sexual activity? **SATISFD6**

1 2 3 4 5
Always Almost Sometimes Almost Never always never

B12. During the past 6 months, how often were you satisfied with the frequency of sexual activity?

1 2 3 4 5
Always Almost Sometimes Almost Never always Never

We have a couple final questions for you. We are asking this next question to gather information about the risk of acquiring HIV/AIDS and other sexually transmitted diseases. We understand that this question is very personal. There are many women in this study with a wide range of experiences. Please answer only if you have had sex with men in the last six months. Your answers are important in this research study and will be kept confidential.

B13. Over the past 6 months, how many men have you had intercourse with?

MEN6MOS6

 Zero

ADDITIONAL PHYSICAL MEASURES

One additional measure, BMI4, has been made available:

Variable	Meaning	Codes
<u>BMI6</u>	Body Mass Index	numeric

BMI6 is calculated as weight in kilograms divided by the square of height in meters.

EAST BOSTON MEMORY TEST

I have some questions that involve remembering things and concentrating. Please try your best.

INTERVIEWER NOTE: RECORD ALL ANSWERS PROVIDED BY THE PARTICIPANT. ALL RESPONSES MUST BE GIVEN **WITHOUT** ANY AID TO MEMORY.

I. IMMEDIATE RECALL OF STORY

Now I would like to ask you to try to remember a short story.

First, I'm going to read you a short story and when I'm through, I'm going to wait a few seconds and then ask you to tell me as much as you can remember.

The story is:

Three children were alone at home and the house caught on fire. A brave fireman managed to climb in a back window and carry them to safety. Aside from minor cuts and bruises, all were well.

WAIT FIVE SECONDS, THEN SAY: Please tell me the story.

RECORD RESPONSE VERBATIM

B. SYMBOL DIGIT MODALITIES TEST

Now, we are going to try something a little different.

PLACE THE LAMINATED TEST FORM IN FRONT OF RESPONDENT RESPONSES ON A BLANK SDMT FORM.

POINT TO KEY AT TOP OF PAGE AND SAY: Look at these boxes. Notice that each box has a little mark in the upper part and a number in the lower part. Each mark has it's own number. Now look down here. [POINT]

Notice that the boxes on the top have marks, but the boxes on the bottom are empty. I want you to call out the number that goes with each mark. For example, look at the first mark and then look at the key. [POINT]

The number 1 goes with the first mark. So you call out the number 1 for the first box.

POINT OUT NEXT 2 ANSWERS: A 5 goes with this mark, and a 2 goes with this mark.

Now what number belongs in the next box?

POINT TO BOX IF NECESSARY. RECORD RESPONSE.

IF RESPONSE IS CORRECT, SAY: Good. You have the idea.

IF RESPONSE IS INCORRECT, SAY: No, that is a 1. AND POINT TO THE APPROPRIATE SYMBOL/ITEM PAIR IN KEY.

Now, for practice, tell me the numbers that belong in the rest of the boxes up to this line.

DRAW OVER THE DOUBLE LINE IN THE PRACTICE ROW.

Use your finger as you move along the row so you don't get lost.

<u>RECORD RESPONSES</u> TO REMAINING PRACTICE ITEMS (ANSWERS: 3 6 2 4 1 6). IMMEDIATELY CORRECT EACH ERROR AS ABOVE. RECORD "0" FOR NON-NUMERIC RESPONSES.

REINSTRUCT AND/OR ENCOURAGE GUESSING IF RESPONDENT IS CONFUSED ON THE PRACTICE ROW; E.G., If you don't know, guess a number from 1 to 9, and I'll tell you if you're right or wrong.

AFTER PRACTICE ROW IS COMPLETED, SAY:

Good, you know how to do them. I have some more of these I want you to do. When I tell you to begin start here [POINT TO THE FIRST SQUARE TO RIGHT OF DOUBLE LINE] and call out the numbers just like you have been doing until I say 'Stop.' If you make a mistake, tell me what you think the correct answer is. Do not skip any boxes and work as quickly as you can. Ready? Begin.

START TIMER AT "BEGIN," ALLOW 90 SECONDS, AND THEN SAY: Stop. RECORD RESPONSES.

DO NOT REINSTRUCT FURTHER; IF PRESSED, SAY: Just do the best you can.

C. SYMBOL DIGIT MODALITIES TEST SCORING:

1.	Admin	istrat	tion status (1, 6-10)	SDMTSTA6		
	1	=	test administered			
	6	=	Not administered because of phy	rsical impairment		
	7	=	Not administered because of verb	bal refusal		
	8	=	Not administered because of a be	ehavioral reason		
	9	=	Not administered for some other	reason		
			Specify	_#SDMTSPE6	_	
	10	=	Administered but not according to	to protocol		
			Specify			
2.	Numbe	er of	Test Administrations	SDMTADM6		
3.	Numbe	er of	Practice Items Correct (0-7)	SDMTPRA6		
4.	Numbe	er of	Test Items Attempted (0-110)	SDMTATM6		
5.	Numbe	er of	Test Items Correct (0-110)	SDMTCOR6		

D. DIGITS BACKWARD

<u>ADMINISTRATION:</u> MAKE SURE YOU HAVE RESPONDENT'S ATTENTION BEFORE PRESENTING EACH ITEM. READ DIGITS CLEARLY AT ONE-PER-SECOND RATE, LETTING VOICE PITCH DROP/RISE ON LAST DIGIT. PRESENT EACH ITEM ONLY ONCE. IF REPETITION IS REQUESTED, SAY: Just tell me what you can remember.

DISCONTINUE AFTER TWO CONSECUTIVE ERRORS <u>AT A GIVEN ITEM LENGTH</u> (e.g., IF BOTH 4a AND 4b ARE ERRORS). IF REQUESTED, REINSTRUCT: After I say the numbers, you are to say them backwards.

IF RESPONDENT REPEATS THE NUMBERS FORWARD, SCORE THE RESPONSE AS AN ERROR (0) AND REINSTRUCT AS ABOVE. ONLY ONE UNREQUESTED REINSTRUCTION IS PERMITTED.

SCORING: CLASSIFY EACH RESPONSE AS ERROR (0) OR CORRECT (1) AND ENTER THE SCORE IN THE SPACE PROVIDED. FOR ITEMS NOT ADMINISTERED DUE TO BRANCHING OR DISCONTINUATION RULE, PLACE AN "-1" IN THE SPACE PROVIDED; FOR ITEMS NOT ADMINISTERED FOR ANY OTHER REASON, ENTER THE APPROPRIATE CODE: 6 = PHYSICAL IMPAIRMENT; 7 = VERBAL REFUSAL; 8 = BEHAVIORAL REASON; 9 = OTHER REASON.

<u>INSTRUCTION:</u> Now, let's move on to another part. I am going to say some numbers. When I stop, I want you to say them backwards.

ITEM RESPONSE CODE

P1. Try this one : 2 - 8 - 3."

IF <u>CORRECT</u> (1), SAY: That's right. Now I have some more numbers. Remember, you are to say them backwards.

[GO TO 1a]

IF <u>ERROR</u> (0), SAY: No, I said 2 - 8 - 3, so to say them backwards, you would need to say 3 - 8 - 2.

[GO TO P2]

P2. Try this one. Remember, you are to say them backwards. Ready? 1-5-8.

IF <u>CORRECT</u> (1), SAY: That's right. Now I have some more numbers. Remember, you are to say them backwards.

[GO TO 1a]

IF <u>ERROR</u> (0), SAY: No, I said 1 - 5 - 8, so to say them backwards, you would need to say 8 - 5 - 1. Now I have some more numbers. Remember, you are to say them backwards.

DIGITS BACKWARD (CONTINUED)

1 = Correct; 0 = Error

-1 = Not Administered due to discontinuation rule

6 = Not administered because of physical impairment

7 = Not administered because of verbal refusal

8 = Not administered because of behavioral reason

9 =No administered for some other reason

Item		Response Code
1a.	Ready? 5 – 1	DIGIT1A6
1b.	Here is another: $3-8$	DIGIT1B6
2a.	Here is another: $4-9-3$	DIGIT2A6

A8.	SPANISHCANTONESE	LANGUAG6	2

[†] This date is given in days since the initial baseline interview, which is day zero.

Now I would like to measure your body composition using this bioimpedance equipment. Body composition is the amount of body fluids, fat, and lean body mass, including your muscles and organs found in your body. B1. Do you have an insulin pump, pacemaker or automatic implantable cardiac defibrillator (AICD)? **AICDPUM6** IF YES OR DON'T KNOW, **STOP**. SUBJECT INELIGIBLE FOR BIOIMPEDANCE If you have not recently done so, I would like you to use the bathroom before we take this measurement. For this measurement, you will need to remove metal jewelry and your right sock and shoe. Two sticky pads called electrodes will be placed on your right hand at the wrist and knuckles and two more will be placed on your right foot at the toes and ankle. Once the electrodes are attached, it will take less than one minute for the equipment to measure your body composition. Before we begin the bioimpedance measurement I need to ask you a few questions that will help us interpret the results. B2. Have you exercised intensely for at least half an hour or taken a sauna within the last 12 hours? That is, since : a.m. / p.m.? EXER12H6 REFUSED. -7 B3. Have you had anything to eat or drink, apart from water, in the last 5 hours? That is, since ___: __ a.m. / p.m.? EAT5HR6 REFUSED.....-7

ALCO24H6

That is, since ___ : __ a.m. / p.m.?

Have you had more than 2 alcohol drinks in the last 24 hours?

B4.

Please remove all metal jewelry. Although you won't feel anything, metal removal is encouraged for more accurate results. Now please remove your right shoe and sock before lying down on a table for the test.

LEGS SHOULD BE FAR ENOUGH APART SO THAT THE THIGHS DO NOT TOUCH. HANDS AND ARMS SHOULD BE FAR ENOUGH APART SO THAT THE HANDS AND ARMS DON'T TOUCH THE TORSO.

IF THE SKIN IS OILY, CLEAN IT WITH AN ALCOHOL SWAB BEFORE ATTACHING ELECTRODES.

IF THE SKIN IS DRY, APPLY A SMALL AMOUNT OF ECG OR CONDUCTIVE PASTE BEFORE ATTACHING ELECTRODES.

B5.	WAS BIOIMPEDANCE MEASUREMENT COMPLETED?	
	COMPBIA6	
	NO	
	YES2	
	REFUSED7 (END)	
B6.	ON WHICH SIDE OF THE BODY WERE THE ELECTRODES PLACED?	
	SIDE6	
	RIGHT1	
	LEFT2	
B7.	RECORD THE CONDUCTANCE / RESISTANCE VALUE THAT APPEARS ON THE IMPEDAMETER:	ANCE
	<u>CONDRAW6 / CONDFRZ6</u> (+ OR -) OHMS	
	(+ OR -) OHMS	
	RECORD THE REACTANCE / IMPEDANCE VALUE THAT APPEARS ON THE IMPEDANCE:	CE
	IMPERAW6 / IMPEFRZ6	
	IMPERAW6 / IMPERZ6 OHMS	
B9.	COMMENTS:	
	#OPERCO16 #OPERCO26	

REMOVE AND DISPOSE OF THE ELECTRODES, BE SURE NOT TO INJURE THE SUBJECT'S SKIN.

Thank you for your participation in this study.

ADDITIONAL MEASURES COLLECTED

The following measures that were collected have been included in the codebook:

SERUM HORMONE MEASURES

1. Variables for assays

Variable	Assay Units	
DHAS6	Dehydroepiandrosterone sulfate ug/dL	
E2AVE6*	Estradiol (see important note below) pg/mL	
FSH6	Follicle-stimulating hormone mIU/m	
SHBG6	Sex hormone-binding globulin	nM
<u>T6</u>	Testosterone	ng/dL

^{*} IMPORTANT NOTE: There were originally two estradiol result variables because estradiol was run in duplicate. E2AVE2 is the within-person arithmetic average of the two estradiol variables.

2. Flags and other variables

Variable	Meaning	Codes
CYCDAY6	Day of cycle n/a	
FLGCV6	Both Estradiol results are > 20 pg/mL and the within- subject coefficient of variation (CV) is > 15%.	0=no, 1=yes
FLGDIF6	One or both Estradiol results ≤ 20 pg/mL and the difference between them is > 10 pg/mL.	
	Note: Differences were found between some of the Estradiol duplicate measurements. The following guidelines were decided upon: 1. If both E2 values>20 pg/ml, CV must be ≤15%. 2. If one or both E2≤20 pg/ml, the two E2 results must agree within 10 pg/ml.	
	DATA WITH THESE FLAGS SHOULD BE OMITTED FROM DATA ANALYSES, OR USED WITH CAUTION IF INCLUDED IN ANALYSES.	

^{*1=}yes means flagged

3. Changes to the data:

- Lower limit of detection (LLD). Hormone results below the LLD were recoded to a value of '.L'.
- LLDs changed over time. The following LLDs were provided by the lab:

Hormone	Time Window on hormone	Lower Limit of Detection
	measurement corresponding to LLD	
DHEAS	~ Sep. 15, 1997	<1.52 ug/dL (Initial value)
	Sep. 16, 1997 ~ Jan. 14, 1999	<0.304 ug/dL
	Jan. 15, 1999 ~	<1.5 ug/dL
E2	~ Feb. 20, 2000	<1.0 pg/mL (Initial value)
	Feb. 21, 2000 ~ Aug. 27, 2001	<2.0 pg/mL
	Aug. 28, 2001 ~ May 03, 2009	<4.0 pg/mL
	May 04, 2009 ~	<7.0 pg/mL
FSH	~ Aug. 05, 1999	<1.05 mIU/mL (Initial value)
	Aug. 06, 1999 ~ Nov. 10, 1999	<1.0 mIU/mL
	Nov. 11, 1999 ~ Jul. 19, 2000	<0.7 mIU/mL
	Jul. 20, 2000 ~ Oct. 29, 2002	<0.6 mIU/mL
	Oct. 30, 2002 ~ Sep. 28, 2003	<0.5 mIU/mL
	Sep. 29, 2003 ~ Feb 20, 2006	<0.4 mIU/mL
	Feb 21, 2006 ~	<0.8 mIU/mL
SHBG	~ Aug. 05, 1999	<1.95 nM (Initial value)
	Aug. 06, 1999 ~ Oct. 31, 1999	<1.9 nM
	Nov. 01, 1999 ~ Mar. 22, 2006	<2.0 nM
	Mar. 23, 2006 ~	<3.2 nM
Т	~ Jun. 04, 1998	<2.19 ng/dL (Initial value)
	Jun. 05, 1998 ~ Jun. 17, 1999	<2.2 ng/dL
	Jun. 18, 1999 ~	<2.0 ng/dL
TSH	~ Sep. 24, 2000	<0.03 uIU/mL (Initial value)
	Sep. 25, 2000 ~ Jun. 21, 2006	<0.13 uIU/mL
	Jun. 22, 2006 ~ Mar. 26, 2007	<0.011 uIU/mL
	Mar. 27, 2007 ~	<0.01 uIU/mL

CARDIOVASCULAR MEASURES

1. Variables for assays

Variable	Assay	Units
CHOLRES6	Total cholesterol	mg/dl
TRIGRES6	Triglycerides	mg/dl
LDLRESU6	Low-density lipoprotein cholesterol (estimated)	mg/dl
HDLRESU6	High density lipoprotein cholesterol	mg/dl
GLUCRES6	Glucose	mg/dl
INSURES6	Insulin	uIU/mI
PAIRESU6	PAI-1	ng/ml
TPARESU6	tPA	ng/ml
LPARESU6	Lipoprotein Lp(a)	mg/dl
APOARES6	Apolipoprotein A-1	mg/dl
APOBRES6	Apolipoprotein B	mg/dl
CRPRESU6	C-reactive protein	mg/l

2. Flags and other variables

Variable	Meaning	Codes
FLAGSER6	Flag to indicate that lipids were measured on serum rather than plasma because plasma was not available. Lipids for	0=no, 1=ves
	these subjects were <u>not</u> set to missing.	1-yes

^{*1=}yes means flagged

3. Changes to the data:

- <u>Non-fasting Triglycerides, Insulin, & Glucose</u> If women were not fasting, triglycerides, insulin and glucose were set to missing in the frozen data set because these assays are not valid for non-fasting samples.
- <u>Estimated vs. Direct LDL</u>. LDL is estimated using the Friedewald equation for all women with triglycerides below 400 mg/dl. If triglycerides exceed 400 mg/dl, LDL is set to missing.
- <u>Serum lipids</u>. A few subjects had their lipids measured from serum rather than plasma. The results were left as is but subjects were flagged (FLAGSER1=1).

BONE MINERAL DENSITY MEASURES

Five of the seven clinical sites did DXA bone scans on the spine and hip. The total bone mineral density scores had to be calibrated in order to apply machine change calibration correction factors.

Variable	Meaning	Codes
SPSCDAY6	Spine Scan Day	
SPSCTIM6	Spine Scan Time	
SPSCMOD6	Spine Scan Mode	5 = 2000 machine
		11=4500 machine
HPSCDAY6	Hip Scan Day	
HPSCTIM6	Hip Scan Time	
HPSCMOD6	Hip Scan Mode	5 = 2000 machine
		11=4500 machine
SPBMDT6	Total Spine BMD w/cross-calibration applied	
HPBMDT6	Total Hip BMD w/cross-calibration applied	

MENOPAUSAL STATUS MEASURES

Variable	Meaning	Codes
STATUS6	Menopausal Status	1 = Post by BSO (Bilateral Salpingo Oophorectomy)
		2 = Natural Post
		3 = Late Peri
		4 = Early Peri
		5 = Pre
		6 = Pregnant/breastfeeding
		7 = Unknown due to HT use
		8 = Unknown due to hysterectomy

<u>STATUS6</u> represents menopausal status, and is determined from questions on bleeding patterns, current hormone use, pregnancy, breastfeeding, hysterectomy, and oophorectomy. Menopause status is compared across visits, and no women were allowed to move backwards in status (e.g. early peri at Visit 08 could not be pre at Visit 09)

<u>Post by BSO</u> - women with both ovaries removed (Bilateral Salpingo Oophorectomy or BSO) prior to natural post menopause

Natural Post - women who had no bleeding in the 12 months prior to the visit

<u>Late Perimenopause</u> - women who had bleeding in the last 12 months prior to her visit but no bleeding in the past three months

<u>Early Perimenopause</u> - women who had bleeding in the last three months but who said their menstrual periods had become farther apart, closer together, more variable, or more regular

<u>Premenopausal</u> - women who reported bleeding in the past three months and who responded that their menstrual periods had stayed the same since their last visit

<u>Pregnant/breastfeeding</u> – women who reported a pregnancy since the last visit or are currently breastfeeding

<u>Unknown due to HT use</u> - pre- and perimenopausal women using hormones, including birth control pills, estrogen, and progestin, patches and a few vaginal hormones

Unknown due to hysterectomy – women who reported hysterectomy without BSO prior to natural post

<u>LMPDAY6</u> is the number of days from baseline (Day 0) to the date of the last menstrual period at Visit 06. It is pulled from another source that evaluated the menopause status related variables over time, and corrected inconsistencies via additional corroborating information

RACE/ETHNICITY

RACE Participant race/ethnicity is provided from the Screener dataset:

Variable	Meaning	Codes
RACE	Race at Screener (Screener Q.33, modified)	1: Black/African American 2: Chinese/Chinese American 3: Japanese/Japanese American 4: Caucasian/ White Non-Hispanic 5: Hispanic
